

Our provision 2016/17

Raise profile of sport within school

We are participating in more intra and inter school competitions. These are celebrated on the school website, in weekly newsletters and in whole school celebration assemblies. A large amount of new equipment was purchased at the start of the year, to replace old and damaged equipment and to expand the amount of equipment available in lesson times.

The profile of sport has been raised in school this year. Regular communication has meant that pupils and families are aware of sporting opportunities.

To increase quality of PE lessons delivered in curriculum time

We have worked with Active Surrey and have a paid membership package with the Youth Sport Trust (Primary PE and Sport Membership). This membership has given us priority access to national training and resources, access to online resources, regional networking opportunities and offers and discounts on sports equipment. We have purchased the Primary Core Curriculum PE Teaching Manuals (by Val Sabin) for dance, gymnastics, games and athletics for all year groups (reception –year 6). This covers both Key Stage One and Key Stage Two and has formed a firm base for planning across the school.

Membership of Active Surrey and the Youth Sport Trust has been valuable. Flaminia Martin has been a great source of information and has enabled us to build links with other agencies. Coaches such as Chris (rugby) have had a positive impact on pupils and staff feel more confident delivering rugby sessions. Staff confidence teaching dance and gymnastics has also increased due to the introduction of the Val Sabin scheme.

To increase participation levels in competitive sport (intra and inter school competitions)

We have worked closely with Flaminia Martin from Active Surrey and the Esher District Primary Schools Sports Association (EPDSSA) to take part in as many opportunities for competitive sport as was feasible throughout the year. We are taking part in more competitions than the previous two years. We have introduced a school house system this year to allow for intra-house competitions. A group of children from year 6 attended 'Sports Crew' training enabling them to deliver 1 Intra-school competition each term and assist with Sports Day.

Whilst participation has increased this needs to continue. Performance at external events could be better – increased time to train before events is needed. The house system is working well and was effective for the fun run and sports days. Additional events need to occur during the year, however.

Raise awareness of the importance of a healthy lifestyle

This year we have introduced 'Fizzy Fun Club' (a Change4life club) for Key Stage 1 children. It has proved very popular. We also have an aerobics instructor who provides dance/aerobics activities two lunchtimes a week; one session in the Early Years and one session for the rest of the school. We have also introduced a 1km a day initiative.

Fizzy Fun has been successful in engaging a broader group of pupils in physical activity. Sarah's lunchtime sessions are extremely popular with a wide age range of pupils and need to continue.

To ensure sustainable impact of the investment we will monitor the PE and Sport provision this year in order to identify key priorities for the future.
